

CV Attachment #3 – Self-educational course passed in youth

This course intersects with the periods of official studies in university and entering IT business; also, active training in running (up to 20 km), weightlifting (up to 120 kg), and drawing with pencil was started at the same time; that's why this course is not so interesting as others.

Film producing and theatrical directing

- Konstantin Stanislavski, almost full collection of works
- "The Complete Film Production Handbook" by Eve Light Honthaner
- "The Producer's Business Handbook" by Jr., John J. Lee and Anne Marie Gillen

Popular applied psychology

- Allan Pease
- Carl Jung
- Dale Carnegie
- Eric Berne
- Konrad Lorenz

Online resources on multiple topics

Full list of resources cannot be posted here because some of them contain too much political content. Only main topics are listed.

- Folk humor
- Blogs and internet literature
- Forums and official websites about migration to US, Canada, Australia, New Zealand, EU
- Forums of software developers

Movies

About several hundreds movies published mainly since 1950's till 2010th year. Mainly of US, Soviet/Russian, European, and Indian production. I do not watch movies anymore because of having other interests in my life. The full list of movies is not included here because many of them may promote ideas or contain scenes which are not socially appropriate in some countries.

Music

Until 2010th year I have listened primarily such genres as pop, pop rock, pop folk, soft rock, blues, art rock, pop jazz, and popular classics. Names of groups and musicians are not included here because ideas of some of their works or public behavior of some of them may be not socially appropriate in some countries.
